*Specialize in
crafting high-precision machines
designed for
"Modern Jewelry Production"*

WS125

Head Wire or Sheet

The WS125 is a heavy-duty machine designed for efficient rolling of head wires and sheets. With a robust 1.5 H.P. electric motor and high-grade branded electrical fittings, this machine ensures consistent performance. Its compact dimensions and solid build make it ideal for both small and large-scale jewelry manufacturing setups.

Roll Size	: 127 x 63 mm (5" x 2.5")
Motor	: 1.5 H.P Single Phase / Three Phase Electric
Electrical Fittings	: Branded Electrical Fittings
Dimensions	: 20 x 20 x 35 inches
Weight	: 130 Kg (Approx)

WSS125

Single Head Square Hollow/Indo Chain

The WSS125 is a versatile rolling machine designed for shaping square, triangle, and half-round wires. Equipped with a VFD speed control system and a powerful motor, it ensures smooth, efficient, and precise output—perfect for jewelry production.

Roll Size	: 127 x 63mm (5" x 2.5") Square Triangle/Half round Roll
Motor	: 1.5 H.P Single Phase / Three Phase Electric Motor
Electrical Fittings	: Branded Electrical Fittings
Dimensions	: 20 x 20 x 35 inches
Weight	: 130 Kg (Approx)

SS125

Single Head Wire or Sheet

SS125 is a compact and powerful rolling machine designed for wire and sheet processing. Equipped with a 1.5 H.P motor, it offers smooth and efficient operation with branded electrical fittings. Ideal for precision rolling with a roll size of 5" x 2.5", it's built for durability and consistent performance.

Roll Size	: 127 x 63mm (5" x 2.5") Roll
Motor	: 1.5 H.P Single Phase/Three Phase Electric Motor
Electrical Fittings	: Branded Electrical Fittings
Dimensions	: 28 x 28 x 53 Inches
Weight	: 180Kg. Approx

WD125

Double Head Wire & Sheet

The WD125 Double Head Wire & Sheet Machine is a compact, high-performance tool for wire and sheet rolling. It features a 125 x 63mm roll, 2 HP motor, and branded electrical fittings, with a sturdy build weighing 180kg.

Roll Size	: 125 x 63mm (5" x 2.5") Wire & Sheet Roll
-----------	--

Motor	: 2 H.P Single/Three Phase Electric Motor
-------	---

Electrical Fittings	: Branded Electricals Fittings
---------------------	--------------------------------

Dimensions	: 31 x 18 x 35 inches
------------	-----------------------

Weight	: 180Kg. Approx
--------	-----------------

WSD125

Double Head Square Hollow/Indo Chain

A powerful dual-head machine for shaping Square Hollow, Indo Chain, Triangle & Half Round designs. Equipped with a 2 HP motor, VFD control, and branded electrical fittings for smooth, precise, and efficient operation.

Roll Size	: 125 x 63mm(5" x 2.5")Square Traingle/Half Round Roll
-----------	--

Motor	: 2 H.P Single/Three Phase Electric Motor
-------	---

Speed	: VFD Speed Control System
-------	----------------------------

Electrical Fittings	: Branded Electricals Fittings
---------------------	--------------------------------

Dimensions	: Dimension : 31 x 18 x 35 inches
------------	-----------------------------------

Weight	: Weight : 180Kg. Approx
--------	--------------------------

SD125

Double Head Wire & Sheet Rolling Machine

A robust double-head machine designed for precision wire and sheet rolling. Powered by a 2 HP motor with branded electrical fittings, it ensures efficient performance and durability for heavy-duty use.

Roll Size	: 125 x 63mm (5" x 2.5") Wire & Sheet Roll
-----------	--

Motor	: 2H.P Three/Single Phase Electric Motor
-------	--

Electrical Fittings	: Branded Electricals Fittings
---------------------	--------------------------------

Dimensions	: 36 x 22 x 51 inches
------------	-----------------------

Weight	: 280Kg. Approx
--------	-----------------

SS150

Single Head Wire & Sheet Rolling Machine

A high-capacity single-head machine built for precision rolling of wire or sheet. Powered by a 2 HP three-phase motor and equipped with quality electrical fittings, it delivers smooth, reliable performance for industrial use.

Roll Size	: 150 x 77mm (6" x 3") Wire Or Sheet Roll
Motor	: 2H.P Three Phase Electric Motor
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: 30 x 24 x 58 inches
Weight	: 310Kg. Approx.

SD150

Double Head Wire & Sheet Rolling Machine

A heavy-duty double-head machine crafted for efficient wire and sheet rolling. Powered by a 3 HP three-phase motor and built with D3 roll material, it ensures durability, precision, and high output for industrial operations.

Roll Size	: 150 x 77mm (6" x 3") Roll
Motor	: 3H.P Three Phase Electric Motor
Roll Material	: D3
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: 43 x 25 x 58 inches
Weight	: 500Kg. Approx.

SD6x4

Double Head Wire & Sheet Rolling Machine

Engineered for precision and performance, the SD6x4 is a double-head wire and sheet rolling machine powered by a 3 HP three-phase motor. With sturdy construction, branded electrical fittings, and a large roll size, it's ideal for heavy-duty industrial applications.

Roll Size	: 150 x 77mm (6" x 3") Roll
Motor	: 3H.P Three Phase Electric Motor
Roll Material	: D3
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: Dimension : 43 x 25 x 58"
Weight	: Weight : 500Kg. Approx.

WSS6x4

Double Head Wire & Sheet Rolling Machine

Designed for efficient wire and sheet rolling with dual heads for increased productivity. Equipped with a 3HP three-phase electric motor and durable D3 roll material, it delivers precise rolling with branded electrical fittings.

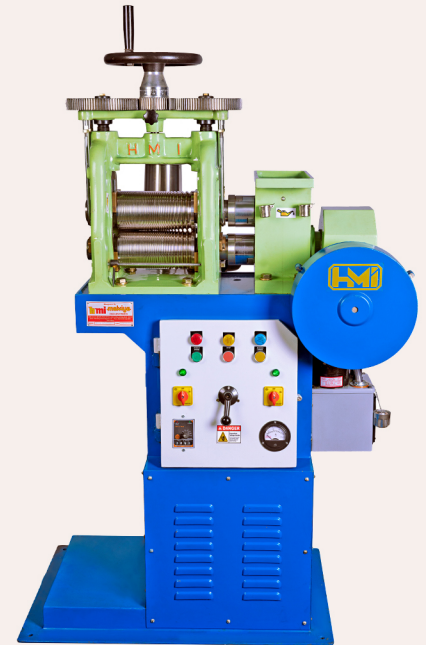

Roll Size	: 150 x 77mm (6" x 3") Roll
Motor	: 3H.P Three Phase Electric Motor
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: Dimension : 43 x 25 x 58 inches
Weight	: Weight : 500Kg. Approx.

WSS200

Single Head Wire & Sheet Rolling Machine

The WSS200 Single Head Wire & Sheet Machine offers efficient wire and sheet rolling with a sturdy motor, auto lubrication, and branded fittings. Compact, reliable, and easy to operate.

Roll Size	: 200 x 100mm (8" x 4")
Size Available	: 12mm-0.7 & 8mm – 0.7mm
Motor	: 7.5H.P/5H.P Dual Speed Three Phase Electric Motor
Lubrication	: Auto Oil Lubrication System
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: 40 x 25 x 62 inches
Weight	: 500Kg. Approx.

SD200

Double Head Wire & Sheet Rolling Machine

The SD200 Double Head Wire & Sheet Machine delivers powerful dual-head rolling for wire and sheet with a robust motor, auto lubrication, and branded fittings. Heavy-duty, precise, and reliable for industrial use

Roll Size	: 200 x 103mm (8" x 4") Roll
Size Available	: Wire Roll Size Available : 16mm to
Motor	: 0mm, 12mm-0.7 & 8mm – 0.7mm
Lubrication	: 7.5/5H.P Three Phase Electric Motor
Electrical Fittings	: Branded Electricals Fittings
Dimensions	: 49 x 38 x 62 inches
Weight	: Weight : 720Kg. Approx.

SD8X6

Double Head Sheet Rolling Machine

A heavy-duty machine with a powerful 12.5 HP motor, auto oil lubrication, and branded fittings. Built for large-scale, precise wire and sheet rolling with smooth, reliable performance.

Roll Size	: 203x153 Roll
Motor	: 12.5h.p 960rpm three phase motor
Lubrication	: Auto oil lubraction system
Electrical Fittings	: Branded electrical fitting
Dimensions	: Dimension :1650 x 670 x 1780mm
Weight	: 1550kg
RPM	: 26 RPM

SS300

Single Head Sheet Rolling Machine

A powerful single-head machine with a 10 HP motor, auto oil lubrication, and branded fittings. Ideal for precise wire and sheet rolling with smooth, consistent output.

Roll Size	: 305 x 127mm Roll
Lubrication	: Auto oil lubrication system
Electrical Fittings	: Branded electrical fitting
RPM	: 32 RPM
Motor	: 10hp three phase motor
Dimensions	: 1220 x 810 x 1680mm
Weight	: 950kg

HMI-6

6 Pass Wire Drawing Machine

Compact and efficient, this machine features a 2 HP motor, water coolant system, and 6-die holder for high-quality wire drawing. Reliable and easy to operate for continuous production.

Die	: 6 Dies Holder
Motor	: 2H.P Single/Three Phase Motor
Coolant	: Automatic Water coolant system
VFD	: VFD controller
Electrical Fittings	: Branded electrical fittings
Dimensions	: 47 x 28 x 53 inches
Weight	: 280kg

HMI-8

8 Pass Wire Drawing Machine

Designed for efficient wire drawing, the HMI-8 features an 8-die holder, a powerful 2HP motor (single/three phase), automatic water cooling, and VFD control. Compact yet durable, it's perfect for medium-scale operations.

Die	: 8 Dies Holder
Motor	: 2H.P Single/Three Phase Motor
Coolant	: Automatic Water coolant system
VFD	: VFD controller
Electrical Fittings	: Branded electrical fittings
Dimensions	: 47 x 28 x 53 inches
Weight	: Weight : 300kg

HMI-12

12 Pass Wire Drawing Machine

A high-performance machine built for heavy-duty wire processing. The HMI-12 comes with a 12-die holder, a robust 3HP three-phase motor.

Die	: 12 Dies Holder
Motor	: 3H.P Three Phase Motor
Coolant	: Automatic Water coolant system
VFD	: VFD controller
Electrical Fittings	: Branded electrical fittings
Dimensions	: 50 x 28 x 53 inches
Weight	: 350kg

HMI - 1D

Single Pass Heavy duty Machine

Ideal for single-die operations, the HMI-1D is compact and powerful with a 1.5HP motor, VFD control, and sturdy design. Perfect for precise, heavy-duty wire drawing in smaller batches.

Die	: 1 Die Holder
Motor	: 1.5 H.P motor
VFD	: VFD controller
Electrical Fittings	: Branded electrical fittings
Dimensions	: 510 x 540 x 630mm
Weight	: 120 kg

HMI-8

Hydraulic Press Machine

Engineered for power and precision, this model features a 3HP motor and a heavy-duty pump for high-efficiency wire drawing. With a robust build and 350kg weight, it ensures stable, continuous operation in demanding industrial settings.

Motor	: 3 H.P Motor
Pump	: Heavy Duty Pump
Weight	: Weight : 350kg
